

Masticuff-Plus

Unique combination for faster recovery in mastitis

MCP

Power of Liquid

Power of liquid

M-Solve is an ideal combination of pH regulator, proteolytic enzyme, potassium iodide, minerals & vitamins in liquid forms.

Liquid form ensures more bioavailability than powder, resulting faster recovery in mastitis.

Effect of pH regulator on milk pH & number of microbial colonies in mastitis

	Milk pH	No. of microbial colonies in udder
Control	7.49	111.50
M-Solve	6.50	90

Normal milk pH 6.50

Buffalo bulletin march, 2013

Ingredients :

Proteolytic enzyme, pH regulator, minerals & vitamins.

Direction for use :

Cow/Buffalo : 60 ml./animal daily for 5 days
or as directed by the Veterinarian.
Can be mix with feed or drinking water.

Usage :

- ◆ Faster recovery in mastitis
- ◆ Normalizes pH of milk
- ◆ Reduces udder inflammation
- ◆ Reduces somatic cell count
- ◆ Reduces fibrosis
- ◆ Checks blood in milk

Packing : 300 ml.
